## MESSAGE FROM THE DESK OF FOUNDER & CO-FOUNDER

### FOUNDER

**Mrs. Neha Aggarwal**

*To think it all started with just an idea and plan on Paper:*

I started "The Little Girl's Foundation" five months back on an idea pitched by my 9-year-old daughter Shanaya and it was just an idea with a plan on paper. Now five months later, the audaciousness of taking charge of the plight of underprivileged kids and the desire to say, "Whatever I can do, I will do" is what continues to define "The Little Girl's Foundation". Imagine what the future could hold if each one of us come together to support every underprivileged child's right to a happy childhood because even the smallest acts of kindness and generosity make a big difference!

### CO-FOUNDER

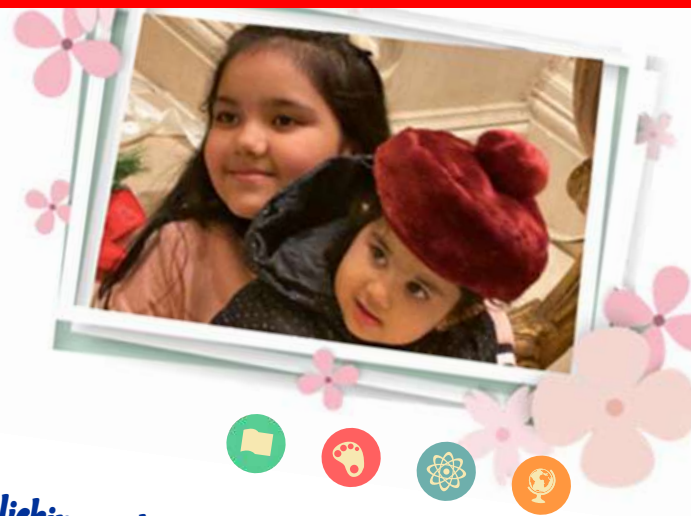

**Mr. Vivek Aggarwal**

*Our approach is modeled around bringing change at all levels with your support, We at "The Little Girl's Foundation" address underprivileged children's critical needs. We focus on changing behaviors and practices at the grassroot levels thereby creating an ecosystem where underprivileged children are made the priority. We are committed to strengthening underprivileged kids and our dedicated team is instrumental in helping us fulfill that commitment across the globe. I dream to ensure happier childhood for all underprivileged children because children are the future of every nation.*

**SHANAYA** IS 10 YEARS OLD AND HER LITTLE SISTER, **SIYARAH** IS 2 AND A HALF YEARS OLD.

Our li'l girl **Siyarah** was frolicking with her favorite toy when the car stopped at the red light, there were few underprivileged kids nearby at the red light. They came towards the car near the window where **Siyarah** was sitting and started peeking inside the car. Somehow, **Siyarah** managed to open the window of the car and playfully gave her toy which she was playing to one of the Kid. The kid got so happy that he started bopping and dancing on the street. **Siyarah's** sister, **Shanaya** was so stirred by the incident that she asked and demanded her parents to give their all toys to these kids and that is how their Parents **Mrs. Neha Aggrawal** and **Mr. Vivek Aggrawal** thought of an initiative with the intention to provide a playful childhood to those kids for whom it's a distanced dream. Further, while working on **Toy Bank** and conducting **R&D** for establishment of **Toy Bank** **Mrs. Neha Aggrawal** was moved by **Food, Education, Cloths, employment** suffering of the underprivileged kids. While further researching she was stunned to know the pitiful situation of Underprivileged kids. Also, the response she received from the **Toy Bank** was amazing and thereafter, she decided to open six different projects (Banks) that are **The Little Girl's Book Bank, The Little Girl's Food Bank, The Little Girl's Job Bank, The Little Girl's Plant Bank, The Little Girl's Toy Bank** and **The Little Girl's Wardrobe Bank** to promote social and economic justice for underprivileged kids across the globe.

# In Conversation with the Sisters

## - Shreya Saraf Interview

**1. How long has it been since you joined the foundation?**

- A month

**2. What would you like to comment of the progress of the foundation since you first started working, up until the present day?**

- I can't express how proud the hard work behind the quick progress has made me. Comparing to last month, the logo and foundation name were yet to be finalised, a new bank was just added and the foundation was still on a quest to find volunteers. Now, after working labouriously for a month, the foundation's beginning stance escalated quickly, leading to good progress.

**3. What has your experience been like?**

- I'm filled with contentment, as I ponder upon my experience, which has been nothing short of impeccable. Until now, my experience has been one where I have felt appreciated, had less pressure, and it was a relaxing yet beautiful one. Further expanding on this, my experience has brought about the satisfaction that comes from being a part of a good cause. Further, it's been a delight to work with Vivek sir.

**4. What new things did you learn about yourself as a person?**

- Distinguishing between the person I was before this foundation and now, earlier, I would limit myself and stay within the boundaries of my mind, but having to work here changed me and made me realize how much fun it is to go above and beyond to take up responsibilities. This also made me realize that I love socializing with people, and making others happy brings about a smile on my face.

**5. What is an advice you would like to give to a newcomer?**

- After having experienced this one-month-old journey, I will advise newcomers to be dedicated and be ready to take up responsibilities. Furthermore, this foundation is also an amazing space to be, it ceases to make you feel appreciated and leaves you happier than before.

## - Suchi Saraf Interview

**1. How long has it been since you joined the foundation?**

- It's been about a month.

**2. What would you like to comment of the progress of the foundation since you first started working, up until the present day?**

- While distinguishing between the progress of the foundation, when I initially started working here, and up until the present day, the conditions earlier were much different. Having pride instilled in me and the way the foundation progressed in only one month was tremendous. Earlier, the foundation was a work in progress, with very few volunteers and a lot of work was needed to be covered up. I can also confidently say from experience that this rapid progress only goes on to show how high the foundation will rise in times to come.

**3. What has your experience been like?**

- I had unsure regarding the foundation previously which ironically turned into a newfound confidence. My motivation arises from the conversation Vivek sir organised between me and some news anchors. I then realised after holding a conversation with some incredibly successful people that I must push myself forward. And, today, I look forward to the foundation work and think of it as my calling.

**4. What new things did you learn about yourself as a person?**

- I had a lot of realisations about changes along the way of this journey. I stumbled upon my quality of good organisation and responsibility of handling tasks well. This organisation made me discover that I myself, hadn't explored enough fields and it is something that I look forward to.

**5. What is an advice you would like to give to a newcomer?**

- For my first-hand experience, I would advise the newcomers not to think of the foundation as work specific deadline-based work. And of course, as long as you're loving what you're doing, it'll all end up well.

## MESSAGE FROM THE TOY BANK

*The best and most beautiful thing in the world is when you feel the rush to help someone, to make that person smile irrespective of everything. I guess when you feel it in the heart that's where you are spreading sunshine amidst the darkness.*

*-Nandini Satija*

*✧ A smile is a happiness you'll find right under your nose ✧.*

*-Sehaj*

*I cannot possibly think of any better feeling than the one you get when you make someone smile.*

*-Medha*

*We take some decisions in life which make us proud of our own self. Working with The Little Girl's Foundation was one of mine. The best thing I get to learn and understand here every day is that their still prevails humanity and people still work hard for nothing but to bring smiles on others faces.*

*-Rafia*

*Above all else, be kind in a world that is so often dark, be light others can look to when the sky is no longer blue.*
